EDUCATION

Madan Mohan Malaviya University of Technology, Gorakhpur *2023-2027*
B.Tech , Computer Science and Engineering CGPA: 7.63

R.P.M. Academy *2022*
Intermediate, ICSE Board, Uttar Pradesh Percentage: 89.25

R.P.M. Academy *2020*
Secondary, ICSE Board, Uttar Pradesh Percentage: 90.4

PROJECTS

- **LibraryOS - Smart Library Management System [https://libraryos-eight.vercel.app/login]** *Dec 25 - Apr 26*
  Full Stack Web Development Project
  Built a complete library management web application with an interactive React-based frontend for managing books, users, and issue/return operations.
  - Tools & technologies used: HTML, Tailwind CSS, Javascript, React.js(JSX), Node.js, Express.js, MySQL
  - More description : Developed REST APIs and integrated frontend with backend to perform real-time CRUD operations efficiently.
  - Learning: Learned frontend-backend integration, API development, state management in React, CRUD operations, and designing efficient database-driven applications.

- **Furfrnd - Dog Selling Web Application [https://furfrnd-mby3.onrender.com/]** *Jan 25-Present*
  Full Stack Web Development Project
  Developed a web application with separate user and admin panels, enabling user to register, login and purchase dogs while allowing admin to manage product listings.
  - Tools & technologies used: HTML, Tailwind CSS, Javascript, Node.js, Express.js, EJS, MongoDB
  - More description : Implemented authentication, cart, wishlist, and secure payment system to enhance user experience.
  - Learning: Gained hands-on experience in full stack development , authentication, role-based access control, payment integration, and building scalable web applications.

Movie Recommender System [https://movie-recommender-w97zkyrtqb8yvbagdkjuzr.streamlit.app/]
Machine Learning Project
Developed a movie recommendation system that suggests movies based on user preferences using content-based filtering.
- Tools & technologies used: Python, Pandas, Numpy, Scikit-learn, Flask
- More description : Performed data preprocessing and deployed the model with user-friendly web interface.
- Learning: Gained knowledge pf machine learning concepts, recommendation algorithms, data analysis, and deploying ML models with web applications.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, C++, Javascript, SQL
Developer Tools: Git, GitHub, VS Code, Postman, MongoDB Compass
Frameworks: React.js, Express.js, Node.js, EJS, Flask
Cloud/Databases: MongoDB, MySQL
Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Time Management
Coursework: Data Structures & Algorithms, Database Management System, Operating System, Computer Networks, Object-Oriented Programming
Areas of Interest: Full Stack Web Development, Software Development Engineering (SDE), Machine Learning, Backend Development

ACHIEVEMENTS

- **NCC 'B' Certificate-** Team management and Engineering Leadership.
